Moving Lymph in 2025 and beyond.....

Moving Lymph evolved out of a deep personal drive to bring MLD to more of the people who need it, and for me that means training as many new Therapists as possible.

Over the years I've run classes at a loss rather than disappoint people who are eager and willing to learn this powerful technique. I've seen the difference they make in their client's lives and that excites me so much more than making money ever could.

But it's not just me teaching now, and I'm way too old to keep living on my credit card! There are other Teachers and Organisers who depend on Moving Lymph to pull together a viable group of students so that they can do their part in creating a quality leaning experience for everyone.

Registration behaviour has changed too. Gone are the days we could rely on a big early-bird discount to kickstart the class list. People either don't have the funds, or are hesitant to commit in advance, or both.

But we need those early commitments. It's a lot of work and outlay if a course doesn't run or has low numbers, and stressful for the Teacher and Organiser when we add students at the last minute. So in 2025 we will cancel courses if we arrive at the confirmation date with low numbers.

To get around these issues we have implemented a new registration system which we hope will make it easier for everyone to plan ahead with confidence.

Jasper has already replaced the old system with a mostly automated process which collects an upfront fee of **only \$50**.

This should enable Therapists to plan their training well in advance with minimal financial commitment, helping us secure the core group of students we need to confidently assemble all the courses resources.

We will continue to offer **early payment discounts** and **flexible payment plans** to help participants save money and stay within their budgets.

Changes to the Moving Lymph website will occur gradually over the first few weeks of 2025. **Please refresh your browser on every page** and let Jasper know if you can't find something you need, or if there are broken links etc.

Moving Lymph Online is Moving!

We have hosted our last meeting on the old MLO platform but you will still have access to everything for another 6-months or so, although no new material will be uploaded.

In 2025; Online Programs, Course Groups, Therapist Communities and Self-Care Clubs will be hosted at Moving Lymph with only one log-in, yeah! 🥰

Some are free or included with Certificate Courses and others will be available on subscription.

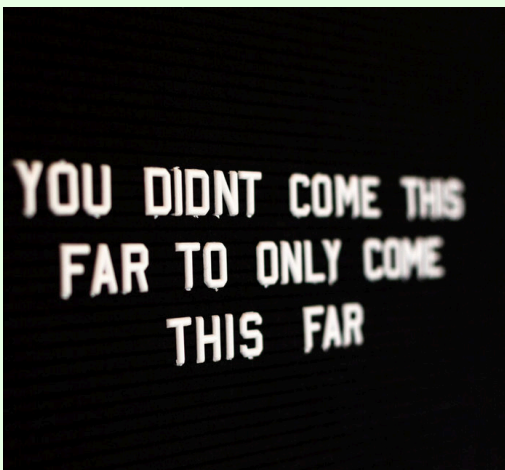

During the transition period you will be invited to check and confirm your personal details and subscriptions at Moving Lymph.

If you are no longer interested in hearing from us just ignore those emails, you won't be moved into the new system, the invitation will expire, and you'll never hear from us again.

Otherwise simply follow the links in the invitation email to confirm your preferences and leave the rest to Jasper.

Changes to course pricing - sorry 😞

We know our courses are a big investment, but we've witnessed their potential to bring life-changing rewards for Therapists and their Clients too.

And after 20 years of promoting and teaching courses, I've realised that Therapists destined for MLD will arrive at the training when the time is right. In some cases we've emailed for years before they join a class, but when they do it is usually at the perfect time to begin a transformative career path.

Over the years we've tried to keep course fees affordable, and on a per day basis they are still way cheaper than other courses I've seen asking \$1600 and \$1800 for just two days, ouch!

Most of our Certificates are still costed at less than \$475 per in-person day, which is actually really cheap. It's the fact that they are between 4 and 14 days long that tots up the expense. That plus the travel, plus being out of the clinic.. It all adds up!

But venues are not getting any cheaper, flights for our International Instructors have skyrocketed, even the certificate and licencing fees have all gone up. Something has to give....

After January 1st credit card fees will be added and from July 1st the GST will no longer be included.

New Online Programs coming....

A naturally aspirational person I am full of ideas and excited to finally have the freedom to focus on what I do best: teaching and researching the human lymphatic system!

I hope you'll be inspired in 2025 by some of our new short courses, or consider joining one of the Self-taping Groups covering everything from caesarean scars to snoring!

There's a lot to look forward to, and I can't wait to share it with you!

!Happy New Year!
